

Vehicle Diminished Value Appraisal

Report Prepared for:

[DVAC Better Business Bureau](#)

Vehicle Diminished Value Appraisal

On the date of _____, DVAC personally reviewed and evaluated all pertinent information on the vehicle described below for the purpose of providing an estimation of the vehicle's Diminished Value, if any.

Vehicle Make and Model:

VIN: _____ Mileage: _____
Color: _____ Interior: _____

Owner: _____
Address: _____
Phone: _____ Email: _____

FEATURES
See _____

COMMENTS
On the date of _____, the vehicle described above suffered damage due to an at fault driver hitting _____

The owner chose _____ to repair and restore the vehicle. The repair required _____ hours on a frame machine, plus _____ hours for machine setup and initial measurement

The total cost of repairs and transportation to the vehicle totaled _____ Damage to the vehicle included
See _____

Assuming all the manufacturer's requirements for the treatment and welding of metals have been properly applied, repairs and restoration appear to meet industry standards for a repair of this nature and the type of work required to restore this vehicle.

ADDITIONAL COMMENTS:

Because this vehicle has suffered this accident, has been repaired, bears evidence of the repair, and because a history of repair for this accident will always follow the vehicle when researched with such services as CARFAX, AutoCheck and others, this vehicle has suffered Diminished Value in the marketplace.

If _____, the owner, decides to sell this vehicle and disclose the accident and repair history referenced in making this appraisal, the owner would have to reduce the asking price in order to make this vehicle as attractive to potential buyers as a similar vehicle without such history. At the time of the accident this vehicle would have had a retail value of _____, according to NADA, Kelly Blue Book, Edmunds, Black Book and/or other authoritative automotive trade industries. But having this accident in it's repair history, the fair market value of this vehicle is now appraised at _____.

Vehicle Diminished Value Appraisal (con't.)

Appraised Diminished Value Amount:

The conclusions of this report are based on:

- Recognized insurance industry metrics
- Repair Records
- Market Research
- Multiple authoritative auto pricing resources (NADA, KBB, Black Book R Book, MMR)

The intent of this appraisal is to provide a fair and objective third-party determination of the diminished market value of the vehicle described herein. I hereby assert that I have no present or prospective financial interest or ownership of any kind in any firm or enterprise engaged in the purchase, sale, insurance, transport of motorized vehicles, nor in any firm engaged in the repair or restoration of motor vehicles. I further assert that I have received no compensation for this Diminished Value appraisal from any source other than the fee paid to me by the person or company who originally authorized me to perform this appraisal on their behalf. With this disclosure, I certify that I have no actual or potential conflict of interest in providing this appraisal, and to the best of my knowledge and belief, my analysis, opinions and conclusions of valuation were developed, and this Report complies with the Standards of Valuation Practice.

Fuel Economy

SMALL STATION WAGONS range from 25 to 120 MPGe. The best vehicle rates 142 MPGe.

105 MPGe combined city/hwy
 116 city
 94 highway
 32 kW-hrs per 100 miles

Driving Range
 When fully charged, vehicle can travel about... **274 miles**

Charge Time: 8.4 hours (240V)

You save \$3,500 in fuel costs over 5 years compared to the average new vehicle.

Annual fuel cost \$600

Fuel Economy & Greenhouse Gas Rating (tailpipe only) 10 Best
Smog Rating (tailpipe only) 10 Best

This vehicle emits 0 grams CO₂ per mile. The best emits 0 grams per mile (tailpipe only). Does not include emission from generating electricity; learn more at fuelconomy.gov.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 27 MPG and costs \$6,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$0.13 per kW-hr. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of global warming and smog.

Glossary

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 11/21/22 at 9:15:14 AM (CST). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- **Minor:** Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- **Moderate:** Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.

- **Severe:** Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
